

Forum on Promoting Article 6 Business Engagement and Matching through the Joint Crediting Mechanism (JCM)

Date: 26th September, 2025

Time: 9:30 am - 1:30pm

Venue: Vivanta, Hyderabad

Zoom Webinar [link](#) Webinar ID: 843 1179 4260

Passcode: 901516

Background and objectives

In 2024, a new era for the global carbon market began, with the agreement to fully operationalize Article 6 of the Paris Agreement at COP29 (Baku). Amidst these international trends, Japan and India signed a Memorandum of Cooperation on the Joint Crediting Mechanism (JCM) on August 7, 2025. Prime Minister Modi visited Japan on August 29th and the leaders of the two countries demonstrated their strong commitment to the active use of the JCM, and the bilateral cooperation for decarbonization.

The JCM facilitates diffusion of decarbonizing technologies, products, systems, services, and infrastructure as well as implementation of mitigation actions, and contributes to sustainable development of partner countries. Through the sharing of advanced decarbonization technologies and knowledge, the JCM aims to contribute to sustainable development and the achievement of the goals of the Paris Agreement.

This forum co-hosted by the governments of the two countries, Ministry of Environment, Forestry and Climate Change (MOEFCC) and Ministry of the Environment Japan (MOEJ), aims to introduce and disseminate decarbonization technologies in India and strengthening cooperation between various stakeholders including private companies, local governments, and related organizations under the JCM framework.

Business Matchmaking

Overview

This Business Matching Session will be held to facilitate direct communication and networking between Japanese and Indian companies, as well as with government representatives. The session is designed to maximize opportunities for business collaboration and project development under the JCM through open and dynamic exchanges among all in-person participants. Approximately 20 companies and organizations will set up consultation tables. General participants are free to move around the venue and join group discussions at any table.

Operation Rules

- **Group Discussions:**
Each table will host group discussions rather than one-on-one meetings. Please use this time to exchange information and explore potential collaboration. For more detailed or confidential discussions, please arrange follow-up meetings separately.
- **Free Movement and Mandatory Shuffle every 15 mins**
Participants are free to move between tables and join different group discussions at any time. Every 15 minutes, all participants are required to move to a different table or group. This ensures broader networking and maximizes opportunities for new connections. Please be mindful of the time at each table (15 minutes per group) to ensure everyone has a chance to participate.
- **If No Seats Are Available:**
If you cannot find a seat at a table, please use the opportunity to network with other participants nearby.
- **No reservation system:**
Due to the large number of participants (approximately 300 people), it is not possible to reserve seats at specific company or organization tables. We appreciate your understanding that the session is designed for open and flexible participation without reservations.

Role of Participants

Role	Details
Participants with Consultation Tables	<ul style="list-style-type: none"> ● Japanese and Indian companies and organizations will each have dedicated consultation tables to introduce their technologies, services, and project ideas. ● Please be ready to welcome groups of participants and facilitate interactive discussions.
General Participants	<ul style="list-style-type: none"> ● All participants other than those hosting tables are free to move between tables and join group discussions. ● If a table is full or unavailable, participants are encouraged to network with each other in the open area. ● Please actively participate in group conversations and make use of the shuffle system to maximize your networking opportunities.
Government Consultation Desks	<ul style="list-style-type: none"> ● Consultation desks will be jointly set up by the Japanese government (MOEJ, METI, JCMA) and the Government of India (MOEFCC). ● Participants can consult with government representatives regarding JCM policies, support schemes, and project development.
The Secretariat	<ul style="list-style-type: none"> ● The Secretariat will also manage the session flow and if support is requested (e.g., explanation of the JCM scheme), the Secretariat will join as a facilitator. ● If you have any questions about the session rules or need assistance, please contact the Secretariat staff at any time.
